I updated the 0800 document for the 1700 submittal. 1) Need to confirm the parishes/municipalities who are conducting debris collections. 2) update the public water supply chart (kris fuller??? Kim ngo???)

Per Kim NGO email 23 systems now on BWA. Need to include the systems bwa map (see attached file) into the 1700 update after the TD 9 map.

LARD OIL this is the updated information from Bryant as of this morning . I INCLUDED THIS NEW TABLE

-
this what I count in RM (the non-highlighted numbers). I will talk the tech guys to see what the issue is.

LARD OIL —	
<u>72</u>	<u>Estimated Total Number of Houses within “Impact Zone”</u>
<u>39</u>	<u>Number of houses Oiled OUTSIDE</u>
<u>7</u>	<u>Number of Houses Oiled INSIDE</u>
<u>46</u>	<u>Number of Houses with Oil in YARD</u>
<u>55</u>	<u>Number of Houses with ACCESS AGREEMENTS Granted to both EPA and Lard</u>

The revoked numbers fall into the denied column which is 6. We have 11 properties remaining to get access for. The number went from 73 to 72 properties because the lot on Hazelnut was part of 116 Hazelnut so we deleted the lot.

Also the house that had oil on the inside yesterday was given that distinction because the addition to the house which was/is the living room had that wood paneling that the oil soaked through and can be seen on the inside.
